

Submitter:

Derek Manis

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

This is blatantly unconstitutional. Its also a gross and negligent disregard for the rights of the citizens of this state. This is nothing more than a political attack on our God given rights and also shows a broader picture of oppression and malignant interference with said rights by our state representatives. Money and time wasted that could have been spent in much more useful manners that actually positively impact our local and statewide communities.
