House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

I oppose this bill! First of all it is not sustainable for either the State or the citizens, which as you have seen from the bipartisan opposition to the transportation bill, the citizens of Oregon are tired of the ridiculous fees and taxes legislation has been attacking us with. Second the Supreme court has yet to rule on 114 so why add to it now. How much of our tax dollars have been wasted on these unconstitutional gun bills? Oregonians are fed up with violations of our rights and taxation without true representation
