

Submitter: Robert Egner
On Behalf Of: Oregon Constitution and Law abiding tax payers
Committee: House Committee On Judiciary
Measure, Appointment or Topic: HB4145

Our legislators need to stop pushing outright unconstitutional Second Amendment infringements.

The US Constitution, The Second Amendment and the Oregon Constitution are clear on Firearms rights. Oregonians and Americans have the right to protect themselves and frankly have the right to stand against oppression from our own government and any foreign adversaries.

There is no such thing as a permit scheme that is legitimate or legal in regards to the Second Amendment.

Further each time our majority party bring forth these bills to infringe on the people's right to defense and to protect our Constitutional rights and liberties it costs millions in tax payer dollars for the majority to use against it's people. And We the People then also have to fund a lawyer to defend our liberties against a majority party that is completely disconnected from reality in their ploy to infringement.

There is no info to prove that these government over reaching laws and burdens the government places on law abiding citizens actually prevent any deaths and in fact firearms in the hands of good citizens and officers save lives daily. Most firearms deaths are attributed to suicide and the person in that mindset is going to sadly commit themselves to that end regardless. The other portion of high firearms deaths are criminals that aren't going to adhere to any kind of permit schemes regardless of this liberty intrusive agenda.

Full stop on this permit scheme. Full stop on any and all provisions of Measure 114. It is Unconstitutional and if seen by the US Supreme Court will be found as such. They have already ruled that much of 114 is Unconstitutional on it face in other rulings setting precedent.

Leave our liberty to protect ourselves alone!
