

Submitter: Larry Mitchell  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure, Appointment or Topic: HB4145

I find this bill absolutely reprehensible.

"Law enforcement exceptions?" How about no law enforcement exceptions to any law? If its not safe for everyone, then it is safe for no one. We don't need laws for thee but not for me.

"Privacy protections?" Government has proven time and again they can't be trusted with private information, and additionally to not use it for malicious purposes.

"Processing time?" A right delayed is a right denied.

"Permit fees?" How about no permit fee? How about constitutional carry?

"Legal challenges?" What gives the government the right to dictate where challenges to laws may be filed? This reeks of manipulation and corruption.
