Measure, Appointment or Topic:

HB4145

This measure is another example of tyranny and the agenda to disarm everyone so none of us can defend ourselves. Measure 114, gun laws and this amendment harm the people it does not help. These gun laws are used to racially target Freedmen and cannot guarantee not to be used to racially target us. The Oregon judge who ruled it unconstitutional even stated it was racist and rooted in racism. It is a 14th Amendment violation of equal protections clause because it is a backdoor deal with gun control orgs. Or course law enforcement, an agency the constitution says can't infringe on our right, is exempt from these gun laws. The creation of the law itself is illegal. The Constitution says shall not be infringed it was the government who illegally stated it was not unlimited, it is. These gun laws aren't even in compliance with the Bruen SCOTUS ruling. Oregon jus does what it wants disregarding the constitution with its own agenda and ppl are done with the BS gun laws. The government lacks that authority based on the constitutions clear intent. The Constitution was meant as defense against the government, not for the government to do whatever it wants with it. This bill is meant to criminalize law abiding citizens. We need less gun laws not more. We need to be repealing gun laws not forcing more laws on the people this isn't freedom. This government is a pedophile network proven by the Epstein files we need more guns and law gun laws to protect ourselves from you the pedophile network. We have hate crime reports against the state for gun laws you haven't even addressed. NO MORE GUN LAWS. ITS TIME TO REPEAL GUN LAWS!!!!
