You people in politics are so stupid and worthless!

This bill and bill 114 will have no effect to the criminals wanting to buy a gun on street. The only people that this will effect is going to be the law abiding citizens that can legally possess a firearm. Has anybody ever done a study yet, by going thru the forms we fill out when we buy a firearm and seen how many lied on form because they are a felon. You should put a step in that would put up a red flag during the background check process that that person is a felon. You politicians were elected by us, but you never listen to the citizens about what would be good for them. You always try to push your beliefs and what you think is right on to the citizens of Oregon.
