HB4153

I strongly oppose this bill. It is a rabbit hole leading to the destruction of the whole concept of "Exclusive Farm Use." HB 4153 is unfixable. It uses dozens of terms that are not defined. It is internally contradictory. Conflicts with existing section of the statutes are unresolved. The constraints on nonfarm sales are illusory. The complexity and amount of judgment it requires of county planners makes it unenforceable. It will spawn decades of administrative nightmares and court cases. This is an unredeemable bill and should be stopped.
