House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

I strongly oppose HB4145. This bill highlights the very facts why BM114 will be ruled unconstitutional. No checks or balances on timelines to issue permits, increase fees, or apply subjective reasoning to deny someone of a RIGHT!

Not only is it astonishing that legislators who take an oath to support the constitution introduce unconstitutional bills, but waste time on matters that are currently in front of the Supreme Court for decision. Anyone who supports this nonsense should be barred from being a legislator.
