HB4145

Please oppose HB 4145, I as an Oregonian have many concerns and issues with this bill and those like it. I will keep this simple however, and state my strongest objections to the bill. Measure 114 is currently being decided by Oregon's Supreme Court. While that is being decided on I do not believe there should be any bills that are related to making changes to effective dates or details to the bill. In addition, this is not what the voters voted on. Measure 114 has been played with, modified, and kicked down the road so many times that it is nothing like the bill voters were originally voting on. My Second issue, the manner and approach that is being taken to get HB 4145 passed is underhanded and basically a middle finger to us as citizens of Oregon. Just like the Transportation bill, our voices are being delayed, muffled, or outright ignored. Not allowing written testimony with ample time prior to the hearing is ridiculous. This bill and others like it are not wanted by the majority of Oregonians. Please stop ignoring the voices of Oregon. We are absolutely fed up with the attitude of our elected State Representatives and leadership. Oppose this bill!
