

Submitter:

Ben DeJarnette

On Behalf Of:

Committee:

House Committee On Transportation

Measure, Appointment or Topic:

HB4007

As the owner of a small business that rents and sells e-bikes, I support a reduced minimum age of 14 years old to ride a Class 1 e-bike. We frequently have families come into our shop looking to rent e-bikes with their teenage kids (who have ridden e-bikes in other states) and we currently have to turn them away or require them to ride as passengers. Updating Oregon's e-bike laws will help small businesses like ours grow while creating a smarter, safer regulatory framework for micromobility devices. Thank you for your consideration.
