

Submitter:	Peg Herring
On Behalf Of:	myself
Committee:	House Committee On Transportation
Measure, Appointment or Topic:	HB4007

I support any legislation that helps law enforcement improve the safety of bikes and pedestrians on places designated as "bike paths." I commute to work six miles on a bike path and I am increasingly sharing this pedestrian-friendly space with reckless e-bike riders who endanger everyone else with their excessive speed and frightening disregard for others on the path. These e-bike riders are dangerous and lawless. They are travelling at the speed of cars and should be kept on roadways not on bike paths. Please enforce limits on speed and power to keep EVERYONE safe on our shared bike paths. Support HB 4007.
