

Submitter: Mary Maley

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB4088

Providers of the abortion pill and other "reproductive services" do not need protection from liability. It is women and their unborn children who need protection--from predatory businesses such as Planned Parenthood that have zero concern for the health of the woman and an active interest in killing the unborn child. The killing industry does not need our help.
