Measure, Appointment or Topic: HB4134

To the House Committee on Revenue Members,

I urge your support of HB 4134. It is refreshing to see bi-partisan efforts in support of a revenue bill. Additionally having the support of both environmental groups and the Cattlemen's Association shows that this is the right thing to do. This funding would help keep the natural beauty of Oregon which in turn will drive economic activity further benefitting Oregonians and those who chose to visit our State. Please vote in favor of HB 4134.

Thank you for your service.
