| Committee: | House Committee On Revenue |
| Measure, Appointment or Topic: | HB4134 |

I strongly support HB 4134 to protect Oregon's fish, wildlife, ecosystems, and legendary quality of life. ODFW cannot do this alone. The agency lacks adequate funding, especially for species that are not considered "blood sport." This bill invests in ODFW's ability to protect species and avoid expensive conflicts. It also invests in Oregon's international reputation as a destination for outdoor recreation with wildlife and protected natural areas that attract visitors. These values are worth paying increased taxes to save our state's beauty.

Please support HB4134 and Make Oregon Green Again.
