

Submitter:

Sandra Ericson

On Behalf Of:

Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4134

All life is an interdependent ecosystem. If habitat and safety is not sustained for wild life, it cannot be sustained for human beings. This bill is an investment, above and beyond party or special interests; it is an investment in our children's future. Assuring the continuity of a future for life is the most basic duty of every elected person. The buck does stop there, on your doorstep.
