Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

As a law abiding Oregon gun owner and as someone who has worked around the firearms industry with LEO and Military my entire career I vehemently oppose HB4145. Measure 114 is already a train wreck and obviously unconstitutional continuing to push this kind of dangerous policy will only serve to get law abiding Oregonians hurt. Crime is sky rocketing in this state as a result of complete mismanagement and not allowing Oregonians to defend themselves from the mess that Oregon politicians have created is not the answer. These bills are wildly unpopular on both sides of the aisle and beyond that we cannot afford the cost it would take to implement this legislation anyway. This is just another bill that will waste tax payer dollars and will do nothing to make Oregon safer.
