Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

Thank you for this opportunity to provide written testimony. I strongly oppose HB4145 which creates unjust burden on law abiding citizens. This does nothing to stop the criminal element, it only puts a road block on law abiding citizens from exercising their constitutional rights. This is just another attack on my 2A constitutional rights as an American. There's so many more issues in this state that need to be addressed. Handling firearms as a young man coming of age I learned from my father on the proper use and respect of the use of firearms and the responsibility that comes with that. I believe these values have deminished over the years. Programs that Derick is teaching the youth that attend his classes on handling firearms is tremendous. These younger need to understand to respect the use and not be afraid. All too often our elected leaders lose focus on the the root causes of the violence that has infected this country. Enforce the laws on the books that currently exist.
Thank you for your time.

Respectfully,
Kevin Reedy
