

Submitter:

Paul Donheffner

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

I am strongly opposed to HB 4145. This matter is presently before the Oregon Supreme Court and the Legislature should defer taking any action until we have a decision on the Constitutionality of 114.

This committee should answer one simple question: what other "Rights" require a class, a test, a permit and a fee in order for a citizen to exercise it? Give me one example before you attempt to take away one of our basic rights granted by the Federal and State constitutions.

HB4145 is wrong for so many reasons. Vote NO!
