House Committee On Revenue

Measure, Appointment or Topic:

HB4125

I am in strong support of this bill. As a licensed tax professional, wroth a tax practice in Oregon, I have been hoping someone would do something about the absurd way that the kicker credit happens. When the revenue projections underestimate revenue, there is a kicker, but when less revenue comes in people are not asked to make up the difference. And the way it has been calculated has resulted in big kickers that we must can't afford. The majority of my clients have commented to me over the years about the absurdity of the way the kicker is created. Clients moving from out of state generally don't understand how this is possible. Please pass this bill.

Lynn handlin, tax consultant
