Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4134

I support HB 4134 because it is a workable solution to protecting wildlife, pollinators, and ecosystem services we rely on for our high quality of life. In addition, it supports our booming tourist industry that relies on clean air, water, and watchable wildlife as well as outdoor recreation. Please advance this bill to fund essential programs.

Revenue will come from visitors, not place all the burden on residents of Oregon. It will be repaid in better experiences for all and a safer environment for pollinators, wildlife, and improved water supplies for recreation and agriculture.
