House Committee On Revenue

Measure, Appointment or Topic:

HB4134

As an internationally touring entertainer based out of Portland, I get the chance to query people about their impressions of Oregon and the Pacific Northwest. People across the U.S. and around the world seem to think we're a wonderland of natural beauty. To maintain this correct impression, we need to maintain our natural environment. A small increase in transient lodging tax will help us care for the environment that makes us world reknowned and a destination for those who travel.
