Committee: House Committee On Revenue

Measure, Appointment or Topic: HB4125

To Whom it May Concern,

This is not "surplus" revenue. This is our hard earned money that you over taxed us and need to return it to those who overpaid. You are thieves raiding our rights to returned money by making new laws. Shame on you. You are not for the people. You are for piliging, over spending, and lawlessness. Oregon will come back and you will be gone as we the people are fighting back. We are the constituents and we demand your attention to allowing us to our paychecks that we work hard for. Please check yourselves before voting and understand that the true Oregonians are tired of others calling this their State, moving in, and then changing the laws to fit your needs that you had in your State that you came from.
