

Submitter: David Schroeder

On Behalf Of:

Committee: House Committee On Revenue

Measure, Appointment or Topic: HB4134

Please move this bill along so that it becomes law. The Oregon Department of Fish and Wildlife would receive a major benefit from this bill becoming law. This tax increase is a small price to pay for the large benefits this bill would provide to non-consumptive wildlife conservation, habitat restoration, and invasive species management in Oregon. Visitors to Oregon, as well as residents of Oregon will realize the benefits of this legislation, as an underfunded ODFW will indirectly be able to help Oregon be more attractive to all.

I thank you for moving this bill through your committee and onward to passage into law. Oregon's wildlife thanks you as well.

David Schroeder
