

Submitter:

Danial Eggleston

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

The fact that this measure is still being pushed by individuals that have no business in office is appalling. This modification of 114 is a joke, as is 114 itself and the over reaching tyrannical "leaders" of Oregon! This so called measure to save lives has stalled for years and guess what? The sky didnt fall and we didnt experience anymore "gun related deaths"! It's all propaganda and an attempt to steal all of our rights while we foot the bill with our tax dollars that you so called representatives mismanaged and spend so frivolous. This bill strips all Oregonians of the 2nd amendment because if we have to ask, if we have to pay, and if we have to get a permit to exercise our rights then we are no longer free. The language you uneducated people use such as "high capacity magazines" to describe a standard magazine is hilarious, because when anyone says that we all know you have no clue what you're talking about. You might try to pass these laws but the Constitution of Oregon and the United States says "SHALL NOT BE INFRINGED". Our founding fathers didnt accept tyranny and neither will the citizens of Oregon!
