Measure, Appointment or Topic:

HB4145

Hi there, I am writing in opposition of HB 4145. Ballot Measure 114 is already facing legal opposition for putting undue stress both on those who wish to legally exercise their second amendment rights and those who are entrusted with the supervision of the permitting process. HB 4145 seems to only exacerbate the nature of 114 being cost prohibitive and potentially used as a weapon against marginalized communities. Carving exceptions out for current and retired law enforcement effectively means that everyone else is a second class citizen when it comes to firearms rights. I don't support these actions or any politician attempting to circumvent our legal processes with this bill. 2A is for everyone.
