HB4145

I Nickyfore kojim oppose any more guns laws. This is unconstitutional and makes us easy prey for criminals and tyrannical government. Criminals never bought their guns in stores and the permit system won't hinder them only law abiding citizens; we don't even have enough taxes for it and I'm tired of being over taxed. We should not waste tax payer money on this because we don't even have the budget for it, and it will get more people killed aswell as increase crime. I will no longer vote for you so called "representatives" in the next elections. Tina kotek can sit on a stick and go back to her state of orgin.
