#### OCL AND OLC STRONGLY OPPOSE HB 4145

What is the hurry that legislators can't wait for the courts on M114 that they need to override any court decision.

Interestingly is a carveout has been added that might give a court appeal more traction.

The bill creates a carve-out for not only active law enforcement, but for off-duty cops, as well as retired cops, probation officers, and parole officers.

As we have seen across the country, terrorist rioting don't pay attention to laws and blindly follow orders. The Democrats are determined to make sure those people are better equipped than you are allowed to be. A legislator's duty is to provide security. Forcibly removing or preventing purchase of firearms is a failure in the 2nd Amendment right the legislator is sworn to uphold.
