

Submitter: James Ellertson

On Behalf Of:

Committee: House Committee On Transportation

Measure, Appointment or Topic: HB4007

I am an avid cyclist and ride many different styles of bicycles, including type 1 ebikes, on public roads, public rightaways, trails and beaches. I oppose HB4007 for the following:

1. It does not address the safety issue properly, all riders should wear protective headgear no matter the age. Seat belts are required in motor vehicles and so should helmets while operating a non motor vehicle on public roads.
2. Milk trucks being allowed to be overloaded causing extra damage should not be included with this bill.
3. Minors being allowed to ride ebikes and other vehicles should be their legal guardians decision.

Thank you for your time.

James Ellertson
