HB4138

I and my loved ones live in fear knowing ICE is out there with the potential to hurt and even kill us with no consequence. They are actively attacking civilians, including children. They are an active threat to our community and must be treated as such. This measure must not be watered down in any form. ICE shouldn't be able to hide their faces, especially when there is daily news of unlawful attacks and terror caused by them in our community. We must have a way to clearly identify who is doing these actions so they can be caught. Pass this as a bare minimum first step, and work toward getting them out so we can be relieved of this constant terror.
