

Submitter:	David Johns
On Behalf Of:	Self and Oregon wildlife
Committee:	House Committee On Revenue
Measure, Appointment or Topic:	HB4134

Please support raising revenue to underwrite wildlife protection. Oregon has decimated much of its wildlife & wildlife habitat for the sake of growth. Too many people in the state; decline in areas protected as wilderness; too much wildlife injured by vehicles; too much poisoning of land and water for the sake of farming, ranching, etc. My windshield used to be covered in bugs, but no more. Where are they?? Something is very wrong. W/o money nothing gets fixed. Even with money much does not get fixed. Please support recovery of wildlife; Oregon does not need more extractive use of wildlife. Thankyou.
