Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4134

I support HB 4134. I am grateful that both parties were able to develop a bipartisan solution to support wildlife in OR. I believe that adding 1.25% increase to the state's transient lodging tax will make a big difference for wildlife, and for the coexistence efforts that reduce retaliatory killing, including of wolves, and strengthen anti-poaching efforts to help reduce illegal wildlife killings. Oregon's beauty is a treasure that we must protect for future generations: its forests, desserts and wildlife is what makes this magnificent land the amazing place we live in.
