

Submitter:

Kelley Damrow

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

I strongly oppose HB 4145.

As a lawful and responsible gun owner, plus a 22yrs of service to this state and country. I find HB 4145 as another stab at lawful gun owners or future gun owners. 1.

The permit to purchase is a ridiculous idea, we already submit a background check via Oregon state police that is submitted and it is almost instantly reviewed. So I believe it a real time investigation into a person. Plus I also believe people will be judged on things like , skin color, sex, etc. This creates unreasonable roadblocks, that will lead to people getting killed because they can't get the tools needed to defend themselves in a timely manner. Just another gun grab.

2. Financial hardship to exercise the right to defend ourself. Ridiculous, that money could go to training or a gun safe. But nope who's pockets does this go to.

3. I feel this is aimed at making law biding citizens or Oregon criminals on purpose. How does this affect criminals? They dont follow laws, like meth is illegal right?.

4. wish Oregon politicians cared about drug and alcohol deaths. You know real issues in the state. So if we wanted to "save lives" let's ban cars, drugs, alcohol.

5. Where is this extra revenue that this will create go to? Governors pet projects?
