Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4134

I support HB 4134. As a park ranger and park manager for the last 21 years I can say with certainty that the viewing of and or the mere presence of wildlife on our public lands is one of the most impactful/memorable experiences people can have in the outdoors. Funding wildlife conservation is not only good for wildlife but also for individuals and the economy.
