Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4134

Dear Legislators, I wish to let you know that I strongly support supporting our wonderful natural resources for their own sake as well as for the sake fellow Oregonians now and in the future. I am a 4th generation Oregonian, born in Portland and raised in The Dalles. I was graduated with honors from the Honors College of the University of Oregon, and as both a writer and a teacher, I have shared my love of the extraordinary diversity and natural wealth that we've inherited. Oregon's cultural and natural diversity have been immensely important to my life and that of my extended family.

Please pass this bill for all of us who call Oregon home and who care immensely about sustaining and sharing what has sustained me so often throughout my life.

Thank you,  
Dennis Stovall
