

Submitter: Kimberly Taylor-Blakemore

On Behalf Of:

Committee: House Committee On Revenue

Measure, Appointment or Topic: HB4134

As an Oregon resident, I strongly encourage you to support the 1.25% for Wildlife bill (HB 4134), which would provide much-needed funding to conserve Oregon's most vulnerable wildlife species.

Oregon's wildlife is one of our state's greatest shared resources. It is central to our outdoor way of life, supports local communities through recreation and tourism, and contributes significantly to our economy.

HB 4134 invests in practical, proven strategies that reduce human-wildlife conflict and promote long-term coexistence. This legislation would benefit both people and wildlife, helping ensure that future generations can continue to experience the natural richness that makes Oregon unique.

Thank you so much for supporting this bill.
