I I oppose any and all gun control. On any basis there is no basis in constitution. Floyd prizanski knows this as we are alumni of exact same university under the exact program.

20 years ago Floyd failed on myself in his attempt.  
Picking at our right knowing full well the US supreme Court can't have enough time to review all these laws individually is evil by nature  
I soundly know each and every licensing scheme is unconstitutional.

The state representatives and Senate know this is nonsense and scream for all these other rights but ignore the 2nd most important.  
No man or woman should have to run a background check or have another person set limits on what they can have.

This law an example of slavery at best.

It has in text and in history by definition of supreme court ruling any gun control is not permissible.

You'll ignore this as usual Floyd and do it anyways.

Remember though grants pass won at the supreme court recently. We will beat you fooyd
