HB4145

Thank you chair vice chair and committee members

Here we go again with another special interest group gun bill that does nothing for the bad and sick people again. I understand that after the controlling party pushed through a transportation bill that was so widely unpopular that it took less than two weeks to gain the signatures to put it to the voters and not to the special interest groups that fund your campaigns. I also understand the controlling party is attempting to do anything to make that mistake not show up on the ballot during the election cycle in November and finally I understand how the controlling party is desperately attempting to get back in good graces with the special interests groups and appeasing them in the form of passing laws that do nothing for the typical Oregonian. I also have a feeling just like the last gun bills the opposition could be 110% and because the special interest masters want their gun bills passed, you are going to pass this bill. When will you start to work for the people and not the special interest and when will you stop putting Oregonians in a position where they will never recover from. In conclusion, if you want to fix something, try fixing number 6 on the background check form, that's the line where it asks for your sex and it gives you male or female and should ask for biological sex and punish those that mark female when in fact they are female. As we learned two sessions ago the LGBTQ community has a 58% chance of committing suicide and we have also learned and witnessed men identifying as women marking the background form as female. 77% of all gun crimes are committed by men and women being the lead target are given a 14 out of 15 applicants automatically approved for a firearm, but again a man identifying as a woman is getting approved automatically and yet they have a 58% chance of committing suicide. Please don't let the Red, Orange and Purple special interest groups army's force you to vote for something that in the end will not pass the constitutional lawsuits.
