HB4134

Hello,

My name is Nelson Kline from Salem, Oregon. I am a fifth generation Oregonian that comes from a long line of wildlife supporters. My family have been foresters, hunters, loggers, anglers, hikers, bird watchers and more. I am in strong support of HB 4134 to provide a stable funding source for Oregon's wildlife. We need to fund habitat protection, wildlife crossings and corridors, sustainable management practices and recovery of at risk species. This is essential to Oregonians in relation to the economy, jobs, tourism and recreation. Please support this bill to protect biodiversity, reduce wildfire risk and sustain healthy ecosystems.

Thank you!
