I do not consent to you stealing more of my money. If you cannot budget with in the means then start reducing the pay at the top of the list. There is NO reason we should be so reliant on Federal funds and this much debt. I see how many people live in this state. If you actually made it affordable people would stay in the State. Most of us work hard for our money, just because you do not does not give you the right to take our money. Figure it out!
