I strongly oppose HB 4145.

I am strongly opposed to this and the other versions of 114 that have been pushed through the legislature. Not only am I opposed to the language of the bill but also the way it is being through. If this was truly a bill of the people deception and constant shifting of the goal posts would not be necessary.

We have witnessed how Oregon has tried to skirt around the will of the people for years. Do better, Oregon.
