Hello-

I have been a resident of Central Oregon for 28 years. I fully support this bill, as I have seen our public lands and direct access to them increasingly threatened due to privatization. Oregon is a beautiful state because of our plentiful and accessible public lands. Our economy is based on tourism to experience the wonders they have to offer. Please support what makes Oregon the best state in the country, and what will continue to be our economic foundation- public lands access, recreation, responsible use, and protection.

Thank you.
