

Submitter: Mary Addams

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or
Topic: SB1541

Our planet's eco-systems are in crisis. If we don't do everything possible to restore harmony to our natural world, we will kill most humans, along with most other species. We're part of the natural world (we're animals too!).

Please support The Climate Superfund Cost Recovery Program. It's based on Vermont's bill which was voted into law. Besides supporting clean energy, this bill will provide the state and municipalities with the necessary funds! The fossil fuel industries have been reaping billions in profit for decades, while we taxpayers have to pay for the damage they do. This bill will begin to reverse this playbook.
