HB4134

Dear Decision Makers,

As an avid hiker and cyclist I have personally seen a significant decline of wildlife presence throughout my home region in southwest Oregon for multiple decades.

For this reason I implore you to support and enact HB 4134 in the new legislative session.

Once wildlife declines and disappears it is obviously very difficult or potentially impossible to bring species back.

Please support HB 4134.

Sincerely,

Spencer Lennard, Williams Oregon
