

Submitter: Joaquin Foster

On Behalf Of:

Committee: House Committee On Health Care

Measure, Appointment or Topic: HB4127

Planned Parenthood and other abortion-providing agencies, which this bill would send funds to, lie to the public about things involving abortion.

For example, there is a myth perpetuated by such organizations that abortion is safer than pregnancy. It is not, by far. Abortion has many frequent complications which affect the woman who goes through it, such as internal bleeding, which requires further treatment. This treatment would likely be provided by the same organization who spread the lie about abortion being safer, and by the same organization which provided said abortion.

I, Joaquin Foster, believe that it is wrong to send taxpayer funds to support any organization which lies in such a way, and in such a widespread and unregulated fashion. There is no way that the average taxpayer would support this, knowing these facts.
