HB4145

Dear Legislators,

The question is shall we waste more time and taxpayer dollars to make the law abiding citizens give up more money and their rights which are constitutionally protected . No.

BM 114 was supposedly passed by 27,054 votes in November 2022. Last month 800,000 voters were purged from the states voter rolls.

Judging by todays testimonies I seriously doubt BM114 would pass today in an honest election.

Any of this feel good gun legislation costs all taxpayers money, robs them of freedoms, protection and can turn law abiding citizens into criminals by doing nothing.

The gun laws are so complicated and ever changing. Can't we just deal with the criminals who are comiiting the crimes and leave the good people alone?

Please shred this bill in committee now.

Thank you, Lonny Brady
