Measure, Appointment or Topic:	HB4145

Here we are years and millions of dollars wasted and still nowhere to. There should definitely not be any carve outs for anyone if this is be any way fair. Extended waiting times could cause serious problems as well as raising fees when the lower fees would have been a hardship for many. When you have to have a permit to exercise a constitutional right that is wrong. This state is already in such financial trouble that spending millions more to go against law abiding citizens is not right.
