House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

I oppose this bill.

Measure 114 does enough damage on its own to our second amendment rights. The more than double price hike for the permit fees alone is absurd. I have major concerns about many points listed on this bill, the fee increase being one of them. Choosing where someone can apply seems like a great way to limit access to being able to submit a permit at all. None of it sits right with me, it feels greatly that this bill is attempting to impede on the American second amendment right as much as possible by making it purely that outrageously inconvenient to legally obtain a firearm.

I oppose this bill.
