Measure, Appointment or Topic: SB1551

To: Senate Committee on Natural Resources and Wildfire

I am writing in support of SB 1551.

In this time of increasing wildfires, it is critical that any homeowner who wants to invest in fire-hardened home improvements they need to be able to do so easily.

It has been my experience that the volunteers who run HOA boards are often not receptive to practical, critical improvements to homes in their association if they do not match "the plan." I have neighbors who have attempted to appeal HOA denials with much frustration and little success.

This legislation provides homeowners with an easier opportunity to make firewise improvements.

Fire-safe practices at all levels are very important for Oregonians to understand and implement.

Thank you  
Denise Cardinali
