HB4145

This bill will hurt good honest law abiding citizens. Criminals circumvent our laws anyways and this bill would do nothing to prevent criminals from illegally obtaining firearms. The bill would do nothing for public safety. We need to focus our leaders time and energy on solving real issues, not creating barriers for good honest Oregonians. Let's work together on the issue of mental health and come up with solutions that would really help those who are in need of help. Law abiding Oregon gun owners want to be allies in that fight, not fighting against you for their constitutional rights. Let's work together.
