

Submitter:	Trent Wise
On Behalf Of:	GUN OWNERS
Committee:	House Committee On Judiciary
Measure, Appointment or Topic:	HB4145

This is clear violation of the second amendment and treason against the constitution and doesn't prevent crime on any level, that reasonably it only makes it difficult on the gun owners, and makes other spend more money on getting permit that are clearly useless and does not help out in any way or shape or form that many other need. I am making this letter because I feel strongly that this measure should be completely tossed out, and not be touch at all and including measure 243. Please read this carefully and take your take time. Remember we vote in this power for necessary reasons and we want you to make the right choice instead of the wrong thank you.
